Fund Manager's Comments

- The month has been a good one for global equities including the Sensex.
- Domestic market sentiment has been constructive led by improved earnings, return of FII purchases and government intent on undertaking bold moves to arrest the economic slowdown.
- Globally, subdued geopolitical risk coupled with progress on the US China trade deal were the main drivers of the rally.
- High frequency consumption and economic indicators remain subdued however tax cuts announced by the government in September 2019 has revived investor sentiment.
- The market is also hopeful of a cut in individual income tax and/or GST rates and several consumer discretionary stocks have rallied on the back of rising expectations of a fiscal stimulus to consumption.
- The government will have to do more in the areas of factors of production after addressing the issue of liquidity and confidence crisis.

Mutual funds pumped in US\$0.5bn into equities (down from US\$1.6bn in the previous month), while net MF flows into debt stood at US\$5.9bn (up from US\$4.4bn in the previous month).

Overall Reading of Market:

- ✧ Global markets looked up on expectations of progress on trade negotiations and easing by global central banks. Lower probability of a disorderly Brexit also supported sentiment. Indian markets sustained their rally as the corporate tax cut supported earnings. FIIs remained net buyers in Indian equities to the tune of US\$1.7bn.

Domestic Events:

- ✧ The RBI cut rates by 25bps at its October meeting.
- ✧ The minutes of the MPC suggest that RBI maintains its easing bias, but monetary policy cannot be the only lever to lift growth.
- ✧ In other demand supportive measures, the RBI announced that the income and lending limits for NBFC-MFIs will be eased. The household income limit for borrowers of NBFC-MFIs will be increased from the current level of Rs .100,000 for rural areas and Rs. 160,000 for urban/semi urban areas, to Rs 125,000 and Rs. 200,000 respectively. The lending limit will also be increased from Rs.100, 000 to Rs.125, 000 per eligible borrower.
- ✧ The Supreme Court ruled that the average gross revenue for telcos should include all revenue accrued to the carriers, including from non-core activities, backing the telecom department's stance. The order paved the way for the DoT to seek more than Rs 1.3tn in dues, penalty and interest from the sector.

Overseas Events

- ✧ The US Federal Reserve cut interest rates by 25bps for the third time this year. Notable in the commentary was the removal of the Fed's pledge to 'act as appropriate to support economic growth'. This has put to rest expectations of another Fed rate cut this year. Brexit has been delayed by another three months to 31st January, from 31st October earlier. Meanwhile UK PM Boris Johnson is calling for a snap election in December.
