IDCW* Policy

(*w.e.f. Apr 1, 2021 — Dividend option is renamed — Income Distribution & Capital Withdrawal)

It is important for investors to note that under the "Dividend" option (renamed as IDCW w.e.f. Apr 1, 2021) certain portion of your capital (equalization reserve) can be distributed as dividend. To understand this further, please note that when units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains shall be credited to an Equalization Reserve Account & which can be used to pay dividend.

Under the IDCW Plan of the schemes, it is proposed to declare IDCWs subject to availability of distributable profits, as computed in accordance with SEBI Regulations. IDCWs, if declared, will be paid (subject to deduction of tax at source, if any) to those Unitholders whose names appear in the Register of Unitholders on the notified record date. However, it must be distinctly understood that the actual declaration of IDCW and the frequency thereof will inter-alia, depend on the availability of distributable profits as computed in accordance with SEBI Regulations. The decision of the Trustee in this regard shall be final. There is no assurance or guarantee to Unit holders as to the rate of IDCW distribution nor will that IDCWs be paid regularly. In order to be a Unitholder, an Investor has to be allotted units against receipt of clear funds by the Scheme. On payment of IDCWs, the NAV will stand reduced by the amount of IDCW and IDCW tax (if applicable) paid..

If the Fund declares IDCW under a Scheme:

"The IDCW warrants shall be dispatched to the Unit holders within 30 days of the date of declaration of the IDCW.

"The IDCW proceeds will be paid by way of ECS / EFT / NEFT / RTGS /Direct credits / any other electronic manner if sufficient banking account details of the investor are available with Mutual Fund

"In case of specific request for IDCW by warrants or unavailability of sufficient details with the Mutual Fund, the IDCW will be paid by warrant and payments will be made in favour of the Unit holder (registered holder of the Units or, if there are more than one registered holder, only to the first registered holder) with bank account number furnished to the Mutual Fund.

INFORMATION OF SCHEME

Reinvestment of IDCW Below the Threshold Amount Taurus Ethical Fund

If the IDCW amount payable to the unit holders under the IDCW payout option of the aforesaid Schemes/Plans is less than the threshold limit of ₹250, then such amount will be compulsorily and automatically reinvested in the respective Schemes/Plans, with effect from February 1, 2011 ("Effective Date").
The IDCW distributed (net of tax deducted at source, whenever applicable) for an amount equal to or less than the threshold limit will be reinvested in the Scheme/Plan by issuing additional Units of the Scheme at the prevailing ex-IDCW Net Asset Value or the record date. There shall be no exit load on the IDCW so invested. The IDCW so reinvested shall constitute a constructive payment of IDCW to the Unitholders and a constructive receipt of the same amount from each Unit Holder for reinvestment in Units.

IDCW Sweep Option:

Under the IDCW Sweep Option (DSO), the investors may opt to automatically sweep (invest) the net IDCW amount payable under the Scheme (hereinafter referred to as "Source Scheme") into any other open ended schemes that are available for subscription (hereinafter referred to as "Target Scheme") of Taurus Mutual Fund on the ex-IDCW date (i.e., the immediate next business day after the Record Date) into the Target Scheme specified by the investor, at the applicable NAV of the Target Scheme and accordingly applicable number of units will be allotted in the Target Scheme. There is no minimum amount prescribed for IDCW amount to be swept to the Target Scheme via DSO. Accordingly, the provision for 'Minimum Application Amount' specified in the respective Target Scheme's SID will not be applicable for investment made via DSO.

- Under the IDCW Sweep Option (DSO), the investors may opt to automatically transfer (invest) the net IDCW amount (i.e., net of statutory levy / taxes, if any) payable under the Scheme (hereinafter referred to as "Source Scheme") into any other scheme that are available for subscription (hereinafter referred to as "Target Scheme") of Taurus Mutual Fund on the ex-IDCW date (i.e., the immediate next business day after the Record Date) into the Target Scheme specified by the investor, at the applicable NAV of the Target Scheme and accordingly applicable number of units will be allotted in the Target Scheme, subject to the terms and conditions of the respective Target Scheme.
- The minimum amount of investment is not applicable for investment made through DSO in the Target Schemes.
- The Units allotted in the Target scheme against investment via DSO will be subject to the applicable Exit Load of the Target scheme.
- Unitholder(s) are advised to read the SID/KIM of Target Scheme(s) carefully before opting for DSO.
- Unit holders who wish to enroll for the DSO facility are required to fill in and submit a prescribed DSO Enrolment Form complete in all respects at any of the Official Point of Acceptance (OPA) of TMF, separately for each Scheme/Plan/Option. The enrolment for DSO facility shall be for all units under the IDCW Option of the respective Source Scheme. Request for IDCW sweep to multiple schemes are not allowed, partial IDCW Sweep and partial IDCW Payout / Reinvestment are also not permitted. If the unitholder fails to specify the option i.e. growth, bonus or IDCW of the target schemes then, the default shall be growth option and the default option under IDCW shall be IDCW re-investment option.
- The DSO Enrolment Form is available with the OPAs and distributors of TMF as well as on the website of TMF, namely, www.taurusmutualfund.com
- Enrolment under the DSO facility will automatically override any previous instructions of the Unitholder for 'IDCW Payout' or 'IDCW Reinvestment' facility, as the case may be, in the Source Scheme and will also apply to additional units allotted in the Source Scheme subsequently on account of additional subscription / switch-in / SIP / STP etc.
- The request for enrolment for DSO must be submitted at least seven (7) working days prior to the Record Date for the IDCW in the Source Scheme. Hence investors should submit the DSO enrolment request sufficiently in advance. In case of this condition not being met, the DSO enrolment would be effective from the immediately succeeding Record Date of the IDCW in the Source Scheme. Consequently, any IDCW declared between the date of acceptance of the DSO Enrolment Form and date of registration thereof by the Registrar will be paid out or reinvested in the Source Scheme, as applicable.
- Unit holders will have the right to opt out of DSO facility at any time by submitting a written request. At the time of discontinuation of DSO facility, the unit holders should specify their choice of option i.e. IDCW Reinvestment or IDCW Payout, in the Source Scheme, failing which, the default sub-option, i.e., IDCW Reinvestment will be applicable.
- Request for cancellation of DSO must be submitted at least seven (7) working days prior to the Record Date for the IDCW in the Source Scheme. Any IDCW declared in the Source Scheme during the interim period will be swept to the Target Scheme.
- The Account Statement for DSO transactions will be sent by post or by email (if email id. is provided) within 30 days of IDCW sweep.
- It is expressly clarified that the IDCWs so swept and invested in Target Scheme shall be constructive payment of IDCWs to the Unit holder/s and constructive receipt of the same amount from each Unit holder for investment in units of Target Scheme. It is further clarified that the IDCW amount transferred would be treated as switch-in / subscription transaction in the Target Scheme and will be liable to PAN and KYC provisions, as may be applicable.
- TMF is not guaranteeing or assuring any IDCW under any of the schemes. All IDCW distributions are subject to investment performance of the respective schemes, availability of distributable surplus and at the discretion of the Trustee.
- The AMC reserves the right to change/ modify the terms and conditions of the DSO without prior notice or without assigning any reason thereof. If DSO facility is withdrawn from any Source Scheme or Target Scheme, all investors who have opted for DSO will be shifted under IDCW Reinvestment Option in the Source Scheme and the unitholders will be sent suitable intimation.

After opening a KYC account under the CKYC, customer/investor will get a 14-digit identification number ("KYC Number") and that the same may be quoted by the investor wanting to invest in mutual funds. Further, the Mutual Fund/AMC is required to check whether the PAN of the investor has been updated in CKYCR. In case the PAN has not been updated, the Mutual Fund/AMC shall collect a self-certified copy of the investor's PAN card and update/upload the same in CKYCR. In case the Investor uses the old KRA KYC form for updating of any KYC information, such investor shall be required to provide additional/missing information only by using the supplementary CKYC form or fill the new "CKYC form".

With effect from Feb 1, 2017, the following will be applicable - CKYC (for Individuals) and KYC (for Non-Individuals, as per existing process). KYC or CKYC may be used interchangeably while writing in SID/SAI; though with the clear understanding that CKYC is applicable for Individuals only.

If TAMCO finds that the name of the first holder in the application is slightly different (spelling error/spelling different/full form vs short name/etc.) than the name on investor's PAN/KYC/CKYC/Bank Account; then TAMCO reserves the right to update the name reflecting on investor's PAN/KYC/CKYC/Bank Account to ensure uniformity. Scheme' Specific Risk Factors

Mutual Fund units involve investment risks including the possible loss of principal. Please read the Scheme Information Document carefully for details on risk factors before investment.

• Risks associated with equity and equity related instruments:

Equity and equity related instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of Equity and Equity Related Instruments may fluctuate due to factors affecting the securities markets such as volume and volatility in the capital markets, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws, political, economic or other developments, which may have an adverse impact on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units issued under the Schemes may be adversely affected.

Further, the Equity and Equity Related Securities are risk capital and are subordinate in the right of payment to other securities, including debt securities.

Equity and Equity Related Instruments listed on the stock exchange carry lower liquidity risk; however the Schemes' ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of a Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme's portfolio.

The Schemes may invest in securities which are not listed on the stock exchanges. These securities may be illiquid in nature and carry a higher amount of liquidity risk, in comparison to securities that are listed on the stock exchanges or offer other exit options to the investor. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

• Risks associated with Securities Lending

The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply with can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity. The Fund Manager will apply the following limit – Not more than 20% of the net assets of the Scheme can generally be deployed in securities lending.

• Risks associated with Short Selling

The Scheme may enter into short selling transactions, subject to SEBI and RBI Regulations. Short positions carry the risk of losing money and these losses may grow unlimited theoretically if the price of the stock increases without any limit which may result in major losses to the Scheme. At times, the participants may not be able to cover their short positions, if the price increases substantially. If numbers of short sellers try to cover their position simultaneously, it may lead to disorderly trading in the stock and thereby can briskly escalate the price even further making it difficult or impossible to liquidate short position quickly at reasonable prices. In addition, short selling also carries the risk of inability to borrow the security by the participants thereby requiring the participants to purchase the securities sold short to cover the position even at unreasonable prices.

• Risks associated with transactions in units through Stock Exchange Mechanism

In respect of transactions in Units of the Scheme through NSE and/ or BSE or any other recognized stock exchange, allotment and redemption of Units on any Business Day will depend upon the order processing/ settlement by NSE, BSE or such other exchange and their respective clearing corporations on which the Fund has no control. Further, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by NSE, BSE or such other recognized exchange in this regard.

• Settlement Risk

Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Portfolio to make purchases in intended securities due to settlement problems could cause the Portfolio to miss certain investment opportunities.

• Regulatory Risk

The value of the securities may be affected by uncertainties such as changes in government policies, changes in taxation, and other developments in the laws and regulations.

• Risk Associated with Unlisted Securities

Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including put options. The AMC may choose to invest in unlisted domestic securities that offer attractive yields within the regulatory limit. This may however increase the risk of the portfolio. Additionally, the liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

Risk Management / Mitigation Strategies

Creation of segregated portfolio shall be subject to following guidelines specified by SEBI as per circular no. SEBI/HO/IMD/DF2/CIR/ P/2018/160 dated December 28, 2018 and circular no. SEBI/HO/IMD/DF2/CIR/P/2019/127 dated November 07, 2019.

The Fund by utilizing a holistic risk management strategy will endeavour to manage risks associated with investing in equity and debt markets. The Fund has identified the following risks of investing in equity and debt instruments and designed risk management strategies to mitigate and manage such risks.

Risk associated with portfolio construction	AMC has incorporated adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep it in line with the investment objective of the Scheme. Fund Management team has adequate processes in place for identifying & analyzing the various risk ratios. Various checks have been put in place to adhere to the Investment Restrictions. AMC is using Miles Moneyware Fundware as Front Office System.

INFORMATION OF SCHEME

Market Liquidity Risk & investment in unlisted securities	Fund Manager would invest in those securities that are expected to have more market liquidity. The first access to liquidity is through cash and fixed income securities. The investment in unlisted securities will be minimal and regularly monitored by the Investment Committee.
Risk associated with Equity derivatives	Equity derivatives may be used for directional (including equitisation of cash) and yield enhancement strategies. The credit risk associated with equity derivatives is decreased as only exchange traded equity derivatives are permitted. On portfolio and regulatory limits, there are internal limits and there is an established monitoring process.
Quality Risk or risk of investing in unsustainable/weak companies	Investment universe is carefully selected to only include high quality businesses.
Concentration Risk	To invest across the market capitalization spectrum and industries/sectors
Risk associated with Stock Lending	At present, there is no significant activity in the Securities Borrowing and Lending market. The Fund has so far not participated in Securities Lending market. However, we understand the risks associated with the securities lending business and the AMC will have appropriate controls (including limits) before initiating any transactions.
Procedure followed for investment decisions & Risk control measures (Applicable to All Equity Schemes)	<p>Before making any fresh investment through primary market or secondary market, the research team prepares a detailed Research Report on each investment based on the fundamental as well as the technical analysis.</p> <p>The Board of Trustees in terms of SEBI's guidelines has approved the format of the Research Reports. The companies are identified for investment based on top down/bottom up approach as well as in-depth market analysis. Thereafter, the Research Report is discussed amongst the Investment Committee members comprising of the CEO, Fund Managers - Debt & Equity, CFO & HOI. The Investment Committee approves or rejects a stock. The stocks approved form a part of the stock universe. The Fund Manager then decides on the timing, quantity & price at which to buy or sell a share within the framework of the Investment Policy. The Fund Manager also takes into account the market conditions, investment/ redemption flows and other external factors. The reasons for subsequent purchase and sale of the same instrument are also being recorded. An Investment looks into the following matters-</p> <ol style="list-style-type: none"> Adherence to Prudential Investment guidelines Choosing the universe of stock for Equity investments. Addition/Deletion of stocks to the universe of stocks. Adherence to Derivatives trading guidelines. Risk management and risk mitigation issues. <p>The Investment Committee meeting is held once a month.</p> <p>The Board of TAMCO has also constituted an Investment Monitoring Committee comprising of two Independent Directors and Managing Director of the Company. Investment Monitoring Committee Meeting is held every month and reviews Investments/ disinvestments made since last meeting, Research Reports etc.</p>
