Standard Deviation: 19.20

Beta: 0.88

(Based on monthly returns over the past 3 years Mibor has been assumed as the risk-free rate of return)

Portfolio Turnover: 1.02

**Fund Manager's Comment:** Scheme has bias towards high quality large cap sector leaders with higher weights in Banks, Pharma, Information Technology and especially consumer stocks, which are well placed to capitalize on the opportunity as people engage in stocking up essentials & groceries. The rate cuts directly help banking sector while the NPA stress may not increase, if not reduce. There was focus was reducing exposure to cyclical as well as commodities.
