I. INTRODUCTION**A. RISK FACTORS****Standard Risk Factors**

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the Schemes invest fluctuate, the value of your investment in the Schemes may go up or down
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Schemes.
- The names of the Schemes do not in any manner indicate either the quality of the Schemes or their future prospects and returns.
- The Sponsor is not responsible or liable for any loss resulting from the operations of the Scheme beyond the initial contribution of ₹ 2,00,000/- (Rupees Two Lacs Only) made by it towards the setting up of the Mutual Fund.
- The present schemes are not guaranteed or assured return schemes.

Schemes Specific Risk Factors**1. Risks associated with equity and equity related instruments:**

Equity and equity related instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of Equity and Equity Related Instruments may fluctuate due to factors affecting the securities markets such as volume and volatility in the capital markets, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws, political, economic or other developments, which may have an adverse impact on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units issued under the Schemes may be adversely affected.

Further, the Equity and Equity Related Securities are risk capital and are subordinate in the right of payment to other securities, including debt securities.

Equity and Equity Related Instruments listed on the stock exchange carry lower liquidity risk; however the Schemes' ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of a Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme's portfolio.

The Schemes may invest in securities which are not listed on the stock exchanges. These securities may be illiquid in nature and carry a higher amount of liquidity risk, in comparison to securities that are listed on the stock exchanges or offer other exit options to the investor. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

2. Risks associated with Fixed Income and Money Market Instruments:**Price Risk/Interest Risk**

Fixed Income and Money Market Instruments carry price risk (also known as interest rate risk). Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rate falls, the prices increase. In case of floating rate instruments, the general level of price risk is low (as compared to fixed rate instruments), however, these instruments are also subject to some amount of interest rate risk as the spread over the benchmark rate may change. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Prices of bonds/money market instruments traded change frequently (up or down) which in turn leads to changes in the NAV of the scheme which holds such securities.

Credit Risk

Credit risk or default risk refers to the risk that the issuer of a fixed income security may default on interest payment or paying back the principal amount on maturity. In case of Government Securities, there is minimal credit risk. Lower rated or unrated securities carry a higher credit risk as compared to higher rated securities.

Liquidity or Marketability Risk

The ability of a fund to execute sale/purchase orders is dependent on the liquidity of the underlying securities. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. The securities that are listed on the stock exchange carry lower liquidity risk, but the ability to sell these securities is limited by the overall trading volumes. Further, different segments of Indian financial markets have different settlement cycles and may be extended significantly by unforeseen circumstances.

Re-investment Risk

This refers to the risk that intermediate cash flows received from a security is re invested at a different rate than assumed at the time of purchase.

Prepayment Risk

Certain fixed income securities give an issuer a right to call back its securities before their maturity date. This right is generally exercised when interest rate has declined. The proceeds received when such right is exercised may get invested at lower yield as the interest rate have declined. This risk of deploying proceeds at lower rate is known as prepayment risk.

3. Risks associated with investments in Government Securities:

The Government Securities Market is the largest and most liquid market in India, with the large participants being banks, non-banking finance companies, insurance companies and provident funds which are required by statutes to invest in Government securities. The government securities are being issued in a tenure starting from 3m upto 40 years at present. It is more liquid in nature because of large investor base as compared to corporate bonds. Since, it is being issued over long tenure compared to corporate bonds, it carries higher interest rate risk on long tenure securities. Since the security is sovereign in nature, the credit risk is minimal.

4. Risks associated with Investing in Derivatives:

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by a Fund Manager involve uncertainty and decision of a Fund Manager may not always be profitable. No assurance can be given that a Fund Manager will be able to identify or execute such strategies. The scheme may invest in Derivative and will allow a max exposure of 20% of the portfolio in Derivatives.

Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments. Other risks include risk of mispricing or improper valuation and the inability of the derivative to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby a Scheme may not be able to sell or purchase derivative quickly enough at a fair price.

5. Risks associated with Securities Lending:

The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply with can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

The Fund Manager will apply the following limit – Not more than 20% of the net assets of the Scheme can generally be deployed in securities lending.

6. Risks associated with Short Selling:

The Scheme may enter into short selling transactions, subject to SEBI and RBI Regulations. Short positions carry the risk of losing money and these losses may grow unlimited theoretically if the price of the stock increases without any limit which may result in major losses to the Scheme. At times, the participants may not be able to cover their short positions, if the price increases substantially. If numbers of short sellers try to cover their position simultaneously, it may lead to disorderly trading in the stock and thereby can briskly escalate the price even further making it difficult or impossible to liquidate short position quickly at reasonable prices. In addition, short selling also carries the risk of inability to borrow the security by the participants thereby requiring the participants to purchase the securities sold short to cover the position even at unreasonable prices.

7. Risks associated with transactions in units through Stock Exchange Mechanism:

In respect of transactions in Units of the Scheme through NSE and/ or BSE or any other recognized stock exchange, allotment and redemption of Units on any Business Day will depend upon the order processing/ settlement by NSE, BSE or such other exchange and their respective clearing corporations on which the Fund has no control. Further, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by NSE, BSE or such other recognized exchange in this regard.

8. Settlement Risk:

Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Portfolio to make purchases in intended securities due to settlement problems could cause the Portfolio to miss certain investment opportunities.

9. Regulatory Risk:

The value of the securities may be affected by uncertainties such as changes in government policies, changes in taxation, and other developments in the laws and regulations.

10. Risk Associated with Unlisted Securities:

Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including put options. The AMC may choose to invest in unlisted domestic securities that offer attractive yields within the regulatory limit. This may however increase the risk of the portfolio. Additionally, the liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

11. Risks associated with investing in Tri Party Repo through CCIL (TREPS):

The mutual fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. CCIL maintains prefunded resources in all the clearing segments to cover potential losses arising from the default member. In the event of a clearing member failing to honour his settlement obligations, the default Fund is utilized to complete the settlement. The sequence in which the above resources are used is known as the "Default Waterfall". As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members.

Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme(s) shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme(s). However, if such limit is breached during the NFO of the Scheme, the Fund will endeavor to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2) (c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme(s) shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

Where investment in unrated debt securities is sought to be made, the specific approval of the Board of Directors of the AMC, shall be obtained.

FEATURES

i) Borrowing by the Mutual Fund

The Schemes may borrow from anybody - corporate including TAMCO, Sponsor and Commercial Banks, up-to a maximum of 20% of the net assets of the Scheme for a maximum duration of 6 months, in order to meet the temporary liquidity needs of the Schemes, for the purpose of re-purchase, redemption of units or payment of interest or IDCW to the unitholders, as per clause 44(2) of SEBI (Mutual Fund) Regulations, 1996.

ii) Portfolio Turnover

“Portfolio Turnover” is the term used by any Mutual Fund for measuring the amount of trading that occurs in a Scheme’s portfolio during the given period. All the schemes being open-ended schemes, it is expected that there would be a number of subscriptions and repurchase on a daily basis. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. However, a high turnover would not

significantly affect the brokerage and transaction costs.

The Fund will endeavor to balance the increased cost on account of higher portfolio turnover with the benefits derived thereof. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of arbitrage opportunities that exist for scrips / securities held in the portfolio rather than an indication of a change in Fund view on a scrip, etc.

iii) **Investment in Derivative Instruments**

The Scheme may invest in derivatives instruments such as Interest Rate Swaps (IRS), Forward Rate Agreements (FRAs) Interest Rate Options and/or Interest Rate Futures (IRF) or such other instruments as may be permitted under the Regulations, in a recognized stock exchange, subject to the frame work specified by SEBI and within the parameters approved by the Trustee Company.

The Schemes may use techniques and instruments such as trading in derivative instruments to hedge the risk of fluctuations in the value of the investment portfolio. The Schemes will use derivative instruments for the purpose of hedging and portfolio balancing. Hedging does not mean maximisation of returns but only reduction of systematic or market risk inherent in the investment.

A derivative is an instrument whose value is derived from the value of one or more of the underlying assets which can be commodities, precious metals, bonds, currency, etc. Common examples of Derivative instruments are Interest Rate Swaps, Forward Rate Agreements, Futures, Options, etc. The Scheme may write (sell) and purchase call and put options in securities in which it invests and on securities indices based on securities in which the scheme invests. Through the purchase and sale of futures contracts and related options on those contracts, the Fund would seek to hedge against a decline in securities owned by the Fund or an increase in the prices of securities which the Fund plans to purchase. The Fund would sell futures contracts on securities indices in anticipation of a fall in stock prices, to offset a decline in the value of its equity portfolio. When this type of hedging is successful, the futures contract increase in value while the Fund's investment portfolio declines in value and thereby keep the Fund's net asset value from declining as much as it otherwise would. Similarly, when the Fund is not fully invested, and an increase in the price of equities is expected, the Fund would purchase futures contracts to gain rapid market exposure that may partially or entirely offset increase in the cost of the equity securities it intends to purchase (short sale).

Example 1: Hedging against an anticipated rise in equity prices

The scheme has a corpus of ₹100 crores and has invested ₹.85 crores in equity and still has a cash of ₹.15 crores available to invest. The Fund may buy index futures of a value of ₹.15 crores. The scheme may reduce the exposure to the future contract by taking an offsetting position as investments are made in the equities the scheme wants to invest in. Here, if the market rises, the scheme gains by having invested in the index futures.

Event	Gain/(Loss) from derivative position	Gain/(Loss) from cash market position	Overall Gain/(loss) to Schemes
5% rise in equity price	$15 \times 5\% = ₹.0.75 \text{ crs}$	$85 \times 5\% = ₹.4.25 \text{ crs}$	₹.5 crores
5% fall in equity price	$15 \times 5\% = (₹.0.75 \text{ crs})$	$85 \times 5\% = (₹.4.25 \text{ crs})$	(₹.5 crores)

Example 2: Hedging against anticipated fall in equity prices:-

If the Fund has a negative view on the market and would not like to sell stocks as the market might be weak, the scheme of the Fund can go short on index futures. Later, the scheme can sell the stocks and unwind the future positions. A short position in the future would offset the long position in the underlying stocks and this can curtail potential loss in the portfolio.

For e.g. The scheme has a corpus of ₹.100 crores and is fully invested in equities. If fund manager wishes to reduce the equity exposure to ₹. 80 crores in a short time, he would sell index future contracts of ₹. 20 crores.

Event	Gain/(Loss) from derivative position	Gain/(Loss) from cash market position	Overall Gain/(loss) to Schemes
5% fall in equity price	$20 \times 5\% = ₹.1 \text{ cr}$	$80 \times 5\% = (₹.4.00 \text{ crs})$	(₹.3 crores)

5% rise in equity price	$20 \times 5\% = (\text{₹.1 cr})$	$80 \times 5\% = \text{₹.4.00 crs}$	₹.3 crores
-------------------------	-----------------------------------	-------------------------------------	------------

- The traded derivatives shall be valued at market price in conformity with the stipulations of sub clauses (i) to (v) of clause 1 of the Eighth Schedule to the SEBI Regulations, as amended from time to time.
- The valuation of untraded derivatives shall be done in accordance with the valuation method for untraded investments prescribed in sub clauses (i) and (ii) of clause 2 of the Eighth Schedule to the SEBI Regulations as amended from time to time. The Trustee shall offer its comments on the above aspects in the report filed with SEBI under sub-regulation (23) (a) of Regulation 18 of the Regulations.

In addition to the above, SEBI vide its circular SEBI/HO/IMD/DF2/CIR/P/2017/109 dated September 27, 2017 has laid down the following guidelines for exposure to Interest Rate Futures (IRF)

Exposure Limits

In addition to the existing provisions of SEBI circular No.IMD/DF/11/2010 dated August 18, 2010, the following are prescribed:

- To reduce interest rate risk in a debt portfolio, mutual funds may hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio is as per the formula given below:

$$\frac{(\text{Portfolio Modified Duration} * \text{Market Value of the Portfolio})}{(\text{Futures Modified Duration} * \text{Futures Price/PAR})}$$
- In case the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged, it would result in imperfect hedging.
- Imperfect hedging using IRFs may be considered to be exempted from the gross exposure, upto maximum of 20% of the net assets of the scheme, subject to the following:
 - Exposure to IRFs is created **only for hedging** the interest rate risk based on the weighted average modified duration of the bond portfolio or part of the portfolio.

- b) Mutual Funds are permitted to resort to imperfect hedging, without it being considered under the gross exposure limits, if and only if, the correlation between the portfolio or part of the portfolio (*excluding the hedged portions, if any*) and the IRF is atleast 0.9 at the time of initiation of hedge. In case of any subsequent deviation from the correlation criteria, the same may be rebalanced within 5 working days and if not rebalanced within the timeline, the derivative positions created for hedging shall be considered under the gross exposure computed in terms of Para 3 of SEBI circular dated August 18, 2010. The correlation should be calculated for a period of last 90 days.

Explanation: If the fund manager intends to do imperfect hedging upto 15% of the portfolio using IRFs on weighted average modified duration basis, either of the following conditions need to be complied with:

- i. The correlation for past 90 days between the portfolio and the IRF is at least 0.9 or
 - ii. The correlation for past 90 days between the part of the portfolio (excluding the hedged portions, if any) i.e. at least 15% of the net asset of the scheme (including one or more securities) and the IRF is at least 0.9.
- c) At no point of time, the net modified duration of part of the portfolio being hedged should be negative.
- d) The portion of imperfect hedging in excess of 20% of the net assets of the scheme should be considered as creating exposure and shall be included in the computation of gross exposure in terms of Para 3 of SEBI circular dated August 18, 2010.

- iv. The basic characteristics of the scheme should not be affected by hedging the portfolio or part of the portfolio (including one or more securities) based on the weighted average modified duration.

Explanation: In case of long term bond fund, after hedging the portfolio based on the modified duration of the portfolio, the net modified duration should not be less than the minimum modified duration of the portfolio as required to consider the fund as a long term bond fund.

- v. The interest rate hedging of the portfolio should be in the interest of the investors.
- vi. Mutual Fund schemes may imperfectly hedge their portfolio or part of their portfolio using IRFs, subject to the following conditions:
- Prior to commencement of imperfect hedging, existing schemes shall comply with the provisions of Regulation 18 (15A) of SEBI (Mutual Funds) Regulations, 1996 and all unit holders shall be given a time-period of at least 30 days to exercise the option to exit at prevailing NAV without charging of exit load.

The risks associated with imperfect hedging shall be disclosed and explained by suitable numerical examples in the offer documents and also needs to be communicated to the investors through public notice or any other form of correspondence.

- In case of new schemes, the risks associated with imperfect hedging shall be disclosed and explained by suitable numerical examples in the offer documents.

Disclosure of Derivative Positions

vii. In addition to the existing provisions, the mutual funds shall also make the following disclosures:

- Separately disclose the hedging positions through IRF (both perfectly and imperfectly) in respective debt portfolios as per the format prescribed in para-13 of SEBI circular no.IMD/DF/11/2010 dated August 18, 2010,
- Investment in interest rate derivatives (both IRS/IRF) shall also be disclosed in the monthly portfolio disclosure as per para-H of SEBI Circular No. CIR/IMD/DF/21/2012 dated September 13, 2012 and
- Disclosure of the details of interest rate derivatives (both IRS/IRF) used for hedging along with debt and money market securities transacted on its website and also forwarded to AMFI as per para-B(3) of SEBI Circular No.Cir/IMD/DF/6/2012 dated February 28, 2012.

Valuation of Derivative Products:

- i. The traded derivatives shall be valued at market price in conformity with the stipulations of sub clauses (i) to (v) of clause 1 of the Eighth Schedule to the SEBI Regulations, as amended from time to time.
- ii. The valuation of untraded derivatives shall be done in accordance with the valuation method for untraded investments prescribed in sub clauses (i) and (ii) of clause 2 of the Eighth Schedule to the

SEBI Regulations as amended from time to time. The Trustee shall offer its comments on the above aspects in the report filed with SEBI under sub-regulation (23) (a) of Regulation 18 of the Regulations.

iv) Securities Lending By the Mutual Fund

Subject to the SEBI (MF) Regulations and in accordance with Securities Lending Scheme, 1997, SEBI Circular No MFD/ CIR/01/047/99 dated February 10, 1999, SEBI Circular no. SEBI/IMD/CIR No 14/187175/2009 dated December 15, 2009 and framework for short selling and borrowing and lending of securities notified by SEBI vide circular No MRD/DoP/SE/Dep/ Cir-14/2007 dated December 20, 2007, as may be amended from time to time, the Scheme seeks to engage in Stock Lending.

The AMC shall adhere to the following limits should it engage in Stock Lending.

1. Not more than 20% of the net assets of the Scheme can be deployed in Stock Lending.
2. Not more than 5% of the net assets of the Scheme can be deployed in Stock Lending to any single approved intermediary, i.e the limit of 5% will be at broker level.

The Mutual Fund may not be able to sell such lent out securities and this can lead to temporary illiquidity

Segregated Portfolio Mechanism:

In order to ensure fair treatment to all investors in case of a credit event and to deal with liquidity risk, SEBI has allowed creation of segregated portfolio of debt and money market instruments by mutual fund schemes.

Creation of segregated portfolio shall be subject to guidelines specified by SEBI from time to time and includes the following:

1) Segregated portfolio may be created, in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:

- a) Downgrade of a debt or money market instrument to 'below investment grade', or
- b) Subsequent downgrades of the said instruments from 'below investment grade', or
- c) Similar such downgrades of a loan rating

2) In case of difference in rating by multiple CRAs, the most conservative rating shall be considered. Creation of segregated portfolio shall be based on issuer level credit events as mentioned above and implemented at the ISIN level.

3) Segregated portfolio may also be created, in the event TAMCO is convinced about adverse material impact on the credit quality of the issuer based on the information available and its internal credit assessment prior to downgrade in credit rating by a SEBI registered Credit Rating Agency.

4) Creation of segregated portfolio is optional and at the discretion of TAMCO.

Note: Below are the relevant definitions related to segregation of portfolio.

Segregated Portfolio - 'Segregated Portfolio' means a portfolio, comprising of debt or money market instrument affected by a credit event, which has been segregated in a mutual fund scheme.

Main Portfolio - 'Main Portfolio' means scheme portfolio excluding the segregated portfolio.

Total Portfolio - 'Total Portfolio' means the scheme portfolio including the securities affected by the credit event

Credit Event :

- (i) Credit Rating agencies downgrading the outstanding credit rating of the issuer to below investment grade; or
- (ii) Issuer fails to fulfill any of its financial obligations; or
- (iii) Any change in the operating/business environment of the issuer which substantially impairs its ability to fulfill its financial obligations.

Process for Creation of Segregated Portfolio

1. Once TAMCO decides on creation of segregated portfolio on the day of credit event/receipt of information about actual default of unrated debtor money market instruments, it shall follow the process laid down below:
 - i) TAMCO shall seek approval of Trustee prior to creation of the segregated portfolio.
 - ii) TAMCO shall immediately issue a press release disclosing its intention to segregate such debt and money market instrument and its impact on the investors. It shall also be disclosed that the segregation shall be subject to

- approval of Trustee. Additionally, the said press release shall be prominently disclosed on the website of the TAMCO.
- iii) TAMCO shall ensure that till the time the Trustee approval is received, which in no case shall exceed 1 (one) business day from the day of credit event, the subscription and redemption in the scheme shall be suspended for processing with respect to creation of units and payment on redemptions.
2. Upon receipt of approval from Trustee:
- i) Segregated portfolio will be effective from the day of credit event
 - ii) TAMCO shall issue a press release immediately with all relevant information pertaining to the segregated portfolio. The said information shall also be submitted to SEBI.
 - iii) An e-mail or SMS will be sent to all unit holders of the concerned scheme(s).
 - iv) The NAV of both segregated and main portfolio(s) will be disclosed from the day of the credit event.
 - v) All existing investors in the scheme(s) as on the day of the credit event will be allotted equal number of units in the segregated portfolio as held in the main portfolio.
 - vi) No redemption and subscription will be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in segregated portfolio, TAMCO will enable listing of units of segregated portfolio on the recognized stock exchange within 10 working days of creation of segregated portfolio and also enable transfer of such units on receipt of transfer requests.
 - vii) After creation of segregated portfolio, investors redeeming their units will get redemption proceeds based on the NAV of main portfolio and will continue to hold the units of segregated portfolio. Further, investors subscribing to the scheme will be allotted units only in the main portfolio based on its NAV.
3. If the Trustee does not approve the proposal to segregate portfolio, TAMCO will issue a press release immediately informing investors of the same and subscription and redemption applications will be processed based on the NAV of total portfolio.
4. Notwithstanding the decision to segregate the debt and money market instrument, the valuation shall take into account the credit event and the portfolio shall be valued based on the principles of fair valuation (i.e. realizable value of the assets) in terms of the relevant provisions of SEBI (Mutual Funds) Regulations, 1996 and Circular(s) issued thereunder.
5. Further, in accordance with SEBI Circular no. SEBI/HO/IMD/DF2/CIR/P/2019/127 dated November 07, 2019, Creation of segregated portfolio in mutual fund schemes has been permitted in respect of unrated debt or money market instruments by mutual fund schemes of an issuer that does not have any outstanding rated debt or money market instruments, subject to the following terms:
- i) Segregated portfolio of such unrated debt or money market instruments may be created only in case of actual default of either the interest or principal amount. As per SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2018/160 dated December 28, 2018, credit event is considered for creation of segregated portfolio, however for the purpose of SEBI Circular no. SEBI/HO/IMD/DF2/CIR/P/2019/127 dated November 07, 2019, actual default by the issuer of such instruments shall be considered for creation of segregated portfolio.
 - ii) TAMCO shall inform AMFI immediately about the actual default by the issuer. Upon being informed about the default, AMFI shall immediately inform the same to all AMCs. Pursuant to dissemination of information by AMFI about actual default by the issuer, AMCs may segregate the portfolio of debt or money market instruments of the said issuer in terms of SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2018/160 dated December 28, 2018.
 - iii) All other terms and conditions as stated in SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2018/160 dated December 28, 2018 shall remain the same.

Risks associated with segregated portfolio

RISK MANAGEMENT/ MITIGATION STRATEGIES

The Fund by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in equity and debt markets. The Fund has identified the following risks of investing in equity and debt instruments and designed risk management strategies to mitigate and manage such risks.

Risk associated with portfolio construction: AMC has incorporated adequate safeguards to manage risks in the portfolio construction process. Risk control would involve managing risk in order to keep it in line with the investment objective of the Scheme. Fund Management team has adequate processes in place for identifying & analyzing the various risk ratios. Various checks have been put in place to adhere to the Investment Restrictions. AMC is using Miles Moneyware Fundware as Front Office System.

Market Liquidity Risk and investment in unlisted securities: Fund Manager would invest in those securities that are expected to have more market liquidity. The first access to liquidity is through cash and fixed income securities. The investment in unlisted securities will be minimal and regularly monitored by Investment Monitoring Committee.

Risk associated with Equity derivatives: Equity derivatives may be used for directional (including equalization of cash) and yield enhancement strategies. The credit risk associated with equity derivatives is decreased as only exchange traded equity derivatives are permitted. On portfolio and regulatory limits, there are internal limits and there is an established monitoring process.

Quality Risk or risk of investing in unsustainable/ weak companies: Investment universe is carefully selected to only include high quality businesses.

Concentration Risk: Investment will be made as far as possible across the market capitalization spectrum and industries/sectors keeping the Investment Objective of the Scheme in view.

Credit Rating Risk: The endeavor is to invest in fixed income securities which have high credit quality and preferably have high rating from rating agencies such as CRISIL, ICRA, CARE or India Ratings & Research. The probability of rating downgrade is low. The due diligence performed by the fund management team before assigning credit limits should mitigate company specific issues.

Interest Rate Risk: Interest rate risk is managed by meticulous determination of average maturity of the portfolio. Extensive analysis of macro economic conditions is carried out to form a view of future interest rates and to position the portfolio accordingly.

Risk associated with Stock Lending: At present, there is no significant activity in the Securities Borrowing and Lending market. The Fund has so far not participated in Securities Lending market. However, we understand the risks associated with the securities lending business and the AMC will have appropriate controls (including limits) before initiating any transactions.

Procedure followed for Investment Decision & Risk Control Measures

Before making any fresh investment through primary market or secondary market, the research team prepares a detailed Research Report on each investment based on the fundamental as well as the technical analysis. The Board of Trustees in terms of SEBI's guidelines has approved the format of the Research Reports. The companies are identified for investment based on top down/ bottom up approach as well as in-depth market analysis. Thereafter, the Research Report is discussed amongst the Investment Committee members comprising of the CEO, Fund Managers - Debt & Equity, CFO & HOI. The Investment Committee approves or rejects a stock. The stocks approved form a part of the stock universe. The Fund Manager then decides on the timing, quantity & price at which to buy or sell a share within the framework of the Investment Policy. The Fund Manager also takes into account the market conditions, investment/ redemption flows and other external factors. The reasons for subsequent purchase and sale of the same instrument are also being recorded. An Investment Committee looks into the following matters -

- a) Adherence to Prudential Investment guidelines
- b) Choosing the universe of stock for Equity investments.
- c) Addition/Deletion of stocks to the universe of stocks.
- d) Adherence to Derivatives trading guidelines.
- e) Risk management and risk mitigation issues.

The Investment Committee meeting is held once a month.

The Board of TAMCO has also constituted an Investment Monitoring Committee comprising of two Independent Directors and Managing Director of the Company. Investment Monitoring Committee Meeting is held every month and reviews Investments/ disinvestments made since last meeting, Research Reports etc.

IDCW Sweep Option

Under the IDCW Sweep Option (DSO), the investors may opt to automatically sweep (invest) the net IDCW amount payable under the Scheme (hereinafter referred to as “Source Scheme”) into any other open-ended schemes (hereinafter referred to as “Target Scheme”) of Taurus Mutual Fund on the ex-IDCW date (i.e., the immediate next business day after the Record Date) into the Target Scheme specified by the investor, at the applicable NAV of the Target Scheme and accordingly applicable number of units will be allotted in the Target Scheme.

There is no minimum amount prescribed for IDCW amount to be swept to the Target Scheme via DSO. Accordingly, the provision for ‘Minimum Application Amount’ specified in the respective Target Scheme’s SID will not be applicable for investment made via DSO.

1. Under the IDCW Sweep Option (DSO), the investors may opt to automatically transfer (invest) the net IDCW amount (i.e., net of statutory levy / taxes, if any) payable under the Scheme (hereinafter referred to as “Source Scheme”) into any other scheme (hereinafter referred to as “Target Scheme”) of Taurus Mutual Fund on the ex-IDCW date (i.e., the immediate next business day after the Record Date) into the Target Scheme specified by the investor, at the applicable NAV of the Target Scheme and accordingly applicable number of units will be allotted in the Target Scheme, subject to the terms and conditions of the respective Target Scheme.
2. The minimum amount of investment is not applicable for investment made through DSO in the Target Schemes.
3. The Units allotted in the Target scheme against investment via DSO will be subject to the applicable Exit Load of the Target scheme.
4. Unitholder(s) are advised to read the SID/KIM of Target Scheme(s) carefully before opting for DSO.
5. Unit holders who wish to enroll for the DSO facility are required to fill in and submit a prescribed DSO Enrolment Form complete in all respects at any of the Official Point of Acceptance (OPA) of TMF, separately for each Scheme/Plan/Option. The enrolment for DSO facility shall be for all units under the IDCW Option of the respective Source Scheme. Request for IDCW sweep to multiple schemes are not allowed, partial IDCW Sweep and partial IDCW Payout / Reinvestment are also not permitted. If the unitholder fails to specify the option i.e. growth, bonus or IDCW of the target schemes then, the default shall be growth option and the default option under IDCW shall be IDCW re-investment option.
6. The DSO Enrollment Form is available with the OPAs and distributors of TMF as well as on the website of TMF, namely, www.taurusmutualfund.com
7. Enrolment under the DSO facility will automatically override any previous instructions of the Unitholder for ‘IDCW Payout’ or ‘IDCW Reinvestment’ facility, as the case may be, in the Source Scheme and will also apply to additional units allotted in the Source Scheme subsequently on account of additional subscription / switch-in / SIP / STP etc.
8. The request for enrolment for DSO must be submitted at least seven (7) working days prior to the Record Date for the IDCW in the Source Scheme. Hence investors should submit the DSO enrolment request sufficiently in advance. In case of this condition not being met, the DSO enrolment would be effective from the immediately succeeding Record Date of the IDCW in the Source Scheme. Consequently, any IDCW declared between the date of acceptance of the DSO Enrollment Form and date of registration thereof by the Registrar will be paid out or reinvested in the Source Scheme, as applicable.
9. Unit holders will have the right to opt out of DSO facility at any time by submitting a written request. At the time of discontinuation of DSO facility, the unit holders should specify their choice of option i.e. IDCW Reinvestment or IDCW Payout, in the Source Scheme, failing which, the default sub-option, i.e., IDCW Reinvestment will be applicable.
10. Request for cancellation of DSO must be submitted at least seven (7) working days prior to the Record Date for the IDCW in the Source Scheme. Any IDCW declared in the Source Scheme during the interim period will be swept to the Target Scheme.
11. The Account Statement for DSO transactions will be sent by post or by email (if email

	<p>id. is provided) within 30 days of IDCW sweep.</p> <p>12. It is expressly clarified that the IDCWs so swept and invested in Target Scheme shall be constructive payment of IDCWs to the Unit holder/s and constructive receipt of the same amount from each Unit holder for investment in units of Target Scheme. It is further clarified that the IDCW amount transferred would be treated as switch-in / subscription transaction in the Target Scheme and will be liable to PAN and KYC provisions, as may be applicable.</p> <p>13. TMF is not guaranteeing or assuring any IDCW under any of the schemes. All IDCW distributions are subject to investment performance of the respective schemes, availability of distributable surplus and at the discretion of the Trustee.</p> <p>14. The AMC reserves the right to change/ modify the terms and conditions of the DSO without prior notice or without assigning any reason thereof. If DSO facility is withdrawn from any Source Scheme or Target Scheme, all investors who have opted for DSO will be shifted under IDCW Reinvestment Option in the Source Scheme and the unitholders will be sent suitable intimation.</p>

SYSTEMATIC WITHDRAWAL PLAN

Systematic Withdrawal Plan is a facility which enables the unitholders to withdraw fixed sums from their unit accounts at periodic intervals. Any unitholder can avail of this facility subject to the terms and conditions contained in the SWP application form. A unitholder can opt for the facility at any time and receive regular monthly / quarterly payments from the account. The first withdrawal date should be atleast 7 business days after the date of SWP application. The valid dates for SWP are 1st, 5th, 10th, 15th and 28th. The minimum number of SWP installments is 6 and the minimum SWP amount is ₹1,000/.

The amount withdrawn under SWP by redemption shall be converted into units of the scheme at the applicable NAV and such units will be subtracted from the unit balance of that unitholder. In case the date falls on a holiday or falls during a Book Closure Period, the immediate next Business Day will be considered for this purpose. Taurus Mutual Fund may close an investor's account if the balance falls below ₹5000/- or equivalent number of units, due to redemptions or use of SWP. This minimum balance amount needed for SWP may be altered from time to time at the discretion of the AMC. Unitholders may terminate the SWP or change the amount of withdrawal, but not below the specified minimum, by giving 15 days' notice to the Fund / R&T Agent. Further, in case of individuals/ HUFs, being residents, where the total income excluding short-term capital gains is below the maximum amount not chargeable to tax³, then the difference between the current maximum amount not chargeable to tax and total income excluding short-term capital gains, shall be adjusted from short-term capital gains. Therefore, only the balance short term capital gains will be liable to income tax at the rate of 15 percent plus surcharge and cess.

Further, the applicable TDS rates are mentioned in paragraph 8 below.

Further, as per section 57, the resident unitholders can claim deduction of interest expense to the extent of 20 per cent of income in respect of such units, included in the total income for that year, without deduction under this section.

- 4) Any income, including gains from redemption of units of scheme of Mutual Fund, received by any person for, or on behalf of, the New Pension System Trust, is exempt in the hands of such person under section 10(44) of the Act.
- 5) STT will apply at the following rates in case of units of equity oriented fund purchased or sold:

However, if there is no trading on 31 January 2018, the FMV will be the highest price quoted on a date immediately preceding 31 January 2018, on which it has been traded. In the case of unlisted unit, the net asset value of such unit on 31 January 2018 will be the FMV.

Tax rates for other categories are given below:

Where such total income exceeds Rs. 20,000	Rs. 3,000 plus 30% of amount exceeding Rs. 20,000

As per the Taxation Laws (Amendment) Act, 2019, co-operative societies have an option to pay tax at the reduced rate of 22% plus applicable surcharge and cess as per section 115BAD of the Act.

The FA 2023 has introduced section 115BAE to provide that new manufacturing co-operative society set up and registered on or after 1 April 2023 and, which commences manufacturing or production on or before 31 March 2024 and does not avail any specified incentives or deductions, may opt to pay tax at concessional rate of 15%.

7) Surcharge and Cess

The tax rates mentioned in paragraphs above would be increased by a surcharge of:

a) For Individuals, HUF, Artificial Juridical Person, AOP⁷ or BOI:

Nature of Income	Up to Rs. 50 lakhs	More than Rs. 50 lakhs but upto Rs. 1 crore	More than Rs. 1 crore but less than Rs. 2 crores	More than Rs. 2 crores but up to Rs. 5 crores	More than Rs. 5 crores
1. Short-term capital gain under section 111A; 2. Long-term capital gains under section 112A; 3. Short term or Long-term capital gains under section 115AD(1)(b)	NIL	10%	15%	15%	15%

4. income from units of MF ⁸ – Residents and Non-residents	NIL	10%	15%	25%	37%*
5. Any other Income	NIL	10%	15%	25%	37%*

* FA 2023 has capped surcharge to 25% where the income of person is chargeable to tax under section 115BAC(1A).

b) For Firms and LLPs

12% where total income exceeds Rs. 10,000,000.

c) For Companies

Company	Total income upto Rs. 1 crore	Total income exceeds Rs. 1 crore but not Rs. 10 crores	Total income exceeds Rs. 10 crores
Domestic company	NIL	7%	12%
Domestic Company opting for section 115BAA and 115BAB	10%		
Foreign company	NIL	2%	5%

d) For co-operative Society

A health and education cess of 4% would be charged on amount of tax inclusive of the applicable surcharge for all taxpayers.

8) TDS on income from mutual funds

a) Dividend income

Category	TDS rate
Resident	10% (section 194K ⁹)
FPI (corporate)	20% (section 196D)
FPI (non-corporate)	20% (section 196D)
Non-residents including corporates	20% (section 196A)

⁸ The FA 2021 caps the surcharge on "dividend". It appears for this purpose that dividend would mean dividend from equity shares and may not cover income from mutual fund schemes/income distributed by mutual funds. This is because the Income-tax Act in several places refers to dividend from equity as "dividend" and dividend from mutual fund as "income distributed by mutual fund". Based on such approach, "mutual fund dividend" is subject to super-rich surcharge.

⁹ Threshold of Rs. 5,000 is applicable under section 194K.

b) Capital gains

Category	TDS rate
Resident	NIL (section 194K ¹⁰)
FPI (corporate)	NIL (section 196D ¹¹)
FPI (non-corporate)	NIL (section 196D)
Other non-residents:	
• Short-term capital gains under section 111A	15% (section 195)*
• Long-term capital gains under section 112A	10% (section 195) ^{12*}

*A non-resident eligible to claim treaty benefits, would be governed by the provisions of the Act to the extent that they are more beneficial. Accordingly, tax should be withheld as per the provisions of the Act or the provisions of the relevant Double Taxation Avoidance Agreement ('DTAA'), whichever is more beneficial. However, the unit holder will be required to provide appropriate documents to the Mutual Fund in order to be entitled to a beneficial rate under such DTAA. The implications of the provisions of General Anti-avoidance Rules ('GAAR')¹³ and Multilateral instrument ('MLI')¹⁴ will also need to be evaluated.

Requirement to furnish PAN

As per section 206AA, if any deductee (investor) fails to furnish or furnishes incorrect permanent account number (PAN) to deductor (mutual fund), tax shall be deducted at higher of the following rates, namely: -

- (i) at the rates specified in the relevant provision of this Act; or
- (ii) at the rate or rates in force; or
- (iii) at the rate of twenty per cent

Further, where the PAN of a resident becomes inoperative due to non-linking of PAN with Aadhaar, it shall be deemed that PAN has not been furnished.

Higher rate of TDS for non-filer of Income tax return

As per section 206AB, tax will be deducted in case of an investor being a specified person* at higher of the following rates, namely: -

- (i) at twice the rate specified in the relevant provision of the Act; or
- (ii) at twice the rate or rates in force; or
- (iii) at the rate of five per cent

*Specified persons (excluding a non-resident who does not have a permanent establishment in India or a person not required to furnish return of income and is notified by the Central Government) means any person who has not filed the return for the previous year immediately preceding the previous year in which tax is required to be deducted; whose time limit to file return has expired and the aggregate of tax deducted at

¹⁰ As per section 194K, TDS is not required to be withheld on income in the nature of capital gains.

¹¹ As per section 196D(2) of the Act, income-tax is not required to be withheld from any income arising to FPIs by way of capital gains on transfer of shares and units referred to in section 115AD.

¹² The FA 2022 has provided that TDS on long term capital gain under section 112A will be calculated on capital gains exceeding Rs.1,00,000.

¹³ GAAR may be invoked by the Indian income-tax authorities if arrangement(s) are found to be impermissible avoidance arrangements. The CBDT has issued clarifications on GAAR (Circular No. 7/2017 dated 27 January 2017). The provisions of GAAR are effective from the financial year commencing April 1, 2017.

¹⁴ The Organisation of Economic Co-operation and Development ('OECD') released the Multilateral Convention to implement Tax Treaty related measures to prevent Base Erosion and Profit Shifting ('MLI'). The MLI, amongst others, includes a "principal purpose test", wherein Tax Treaty benefits can be denied if one of the principal purpose of an arrangement or a transaction was to, directly or indirectly, obtain tax benefit. The MLI has also expanded the scope of permanent establishment to include agent (excluding an independent agent) playing principal role, leading to routine conclusion of contracts without material modification. For this purpose, an agent is not considered independent if it acts exclusively or almost exclusively on behalf of one or more closely related enterprises. India has been an active participant in the entire discussion and its involvement in the BEPS project has been intensive. In a ceremony held in Paris on 7 June 2017, various countries including India, signed the MLIs.

source and tax collected at source is fifty thousand or more in the said previous year.

If section 206AA is applicable to a specified person, in addition to the provision of section 206AB, the tax shall be deducted at higher of the two rates provided in section 206AB and in section 206AA.

9) Surcharge on TDS

- In case of TDS on payments made to residents, the tax rates would not be increased by surcharge and cess.
- In case of TDS on payments made to non-residents, the tax rates would be increased by surcharge and cess. The surcharge rates are as under:

Nature of Income	Up to Rs. 50 lakhs	More than Rs. 50 lakhs but upto Rs. 1 crore	More than Rs. 1 crore but less than Rs. 2 crores	More than Rs. 2 crores but up to Rs. 5 crores	More than Rs. 5 crores	More than Rs. 10 crores
a) Non-corporates ¹⁵

<ul style="list-style-type: none"> Any other Income 	NIL	10%	15%	25%	37%*	
b) Corporates	NIL		2% (More than Rs. 1 crore but up to Rs. 10 crores)		5%	

* FA 2023 has capped surcharge to 25% where the income of such person is chargeable to tax under section 115BAC(1A).

The rate of health and education cess is 4%. (applicable on tax plus surcharge).

Illustration of Impact of expense ratio on scheme's returns

To see how expense ratios can affect the investments over time, let's compare the returns of several hypothetical investments that differ only in expense ratio. The following table depicts the returns on Rs10, 000 initial investment, assuming an average annualized gain of 10%, with different expense ratios (0.50%, 1%, 1.50%, and 2% %):

		Expenses Ratio				
Year	10% Gain (₹)	0.50%	1.00%	1.50%	2.00%	
0	10000.00	10000.00	10000.00	10000.00	10000.00	
1	11000.00	10950.00	10900.00	10850.00	10800.00	
2	12100.00	11990.50	11881.50	11773.00	11668.00	
3	13310.00	13129.00	12951.92	12775.33	12610.00	
4	14641.00	14375.00	14116.00	13874.00	13632.00	
5	16105.10	15739.00	15386.00	15064.00	14742.00	
	Less Received	366.1	719.1	1041.1	1363.1	
	Less (Percentage)	2.27	4.47	6.46	8.46	

If an investor had invested ₹10,000 in the scheme with a 2.00% expense ratio, the value of the investment would be ₹14742 after 5 years. Whereas, if the investor had invested ₹ 10,000 in a scheme with 0.50% expense ratio, the investment would be worth ₹ 15739 after 5 years.
