IDCW* Policy

(*w.e.f. Apr 1, 2021 – Dividend option is renamed – Income Distribution & Capital Withdrawal)

It is important for investors to note that under the "Dividend" option (renamed as IDCW w.e.f. Apr 1, 2021) certain portion of your capital (equalization reserve) can be distributed as dividend. To understand this further, please note that when units are sold, and sale price (NAV) is higher than face value of the unit, a portion of sale price that represents realized gains shall be credited to an Equalization Reserve Account & which can be used to pay dividend.

Under the IDCW Plan of the schemes, it is proposed to declare IDCWs subject to availability of distributable profits, as computed in accordance with SEBI Regulations. IDCWs, if declared, will be paid (subject to deduction of tax at source, if any) to those Unitholders whose names appear in the Register of Unitholders on the notified record date. However, it must be distinctly understood that the actual declaration of IDCW and the frequency thereof will inter-alia, depend on the availability of distributable profits as computed in accordance with SEBI Regulations. The decision of the Trustee in this regard shall be final. There is no assurance or guarantee to Unit holders as to the rate of IDCW distribution nor will that IDCWs be paid regularly. In order to be a Unitholder, an Investor has to be allotted units against receipt of clear funds by the Scheme. On payment of IDCWs, the NAV will stand reduced by the amount of IDCW and IDCW tax (if applicable) paid..

If the Fund declares IDCW under a Scheme:

"The IDCW warrants shall be dispatched to the Unit holders within 7 business days from the record date.

"The IDCW proceeds will be paid by way of ECS / EFT / NEFT / RTGS / Direct credits / any other electronic manner if sufficient banking account details of the investor are available with Mutual Fund

"In case of specific request for IDCW by warrants or unavailability of sufficient details with the Mutual Fund, the IDCW will be paid by warrant and payments will be made in favour of the Unit holder (registered holder of the Units or, if there are more than one registered holder, only to the first registered holder) with bank account number furnished to the Mutual Fund.

Reinvestment of IDCW Below the Threshold Amount

If the IDCW amount payable to the unit holders under the IDCW payout option of the aforesaid Schemes/Plans is less than the threshold limit of ₹250, then such amount will be compulsorily and automatically reinvested in the respective Schemes/Plans, with effect from February 1, 2011 ("Effective Date").

INFORMATION OF SCHEME

The IDCW distributed (net of tax deducted at source, whenever applicable) for an amount equal to or less than the threshold limit will be reinvested in the Scheme/Plan by issuing additional Units of the Scheme at the prevailing ex-DCW Net Asset Value on the record date. There shall be no exit load on the IDCW so invested. The IDCW so reinvested shall constitute a constructive payment of IDCW to the Unitholders and a constructive receipt of the same amount from each Unit Holder for reinvestment in Units.

IDCW Sweep Option:

Under the IDCW Sweep Option (DSO), the investors may opt to automatically sweep (invest) the net IDCW amount payable under the Scheme (hereinafter referred to as "Source Scheme") into any other open ended schemes that are available for subscription (hereinafter referred to as "Target Scheme") of Taurus Mutual Fund on the ex-IDCW date (i.e., the immediate next business day after the Record Date) into the Target Scheme specified by the investor, at the applicable NAV of the Target Scheme and accordingly applicable number of units will be allotted in the Target Scheme. There is no minimum amount prescribed for IDCW amount to be swept to the Target Scheme via DSO. Accordingly, the provision for 'Minimum Application Amount' specified in the respective Target Scheme's SID will not be applicable for investment made via DSO.

- Under the IDCW Sweep Option (DSO), the investors may opt to automatically transfer (invest) the net IDCW amount (i.e., net of statutory levy / taxes, if any) payable under the Scheme (hereinafter referred to as "Source Scheme") into any other scheme that are available for subscription (hereinafter referred to as "Target Scheme") of Taurus Mutual Fund on the ex IDCW date (i.e., the immediate next business day after the Record Date) into the Target Scheme specified by the investor, at the applicable NAV of the Target Scheme and accordingly applicable number of units will be allotted in the Target Scheme, subject to the terms and conditions of the respective Target Scheme.
- The minimum amount of investment is not applicable for investment made through DSO in the Target Schemes.
- The Units allotted in the Target scheme against investment via DSO will be subject to the applicable Exit Load of the Target scheme.
- Unitholder(s) are advised to read the SID/KIM of Target Scheme(s) carefully before opting for DSO.
- Unit holders who wish to enroll for the DSO facility are required to fill in and submit a prescribed DSO Enrolment Form complete in all respects at any of the Official Point of Acceptance (OPA) of TMF, separately for each Scheme/Plan/Option. The enrolment for DSO facility shall be for all units under the IDCW Option of the respective Source Scheme. Request for IDCW sweep to multiple schemes are not allowed, partial IDCW Sweep and partial IDCW Payout / Reinvestment are also not permitted. If the unitholder fails to specify the option i.e growth, bonus or IDCW of the target schemes then, the default shall be growth option and the default option under IDCW shall be IDCW re-investment option.
- The DSO Enrolment Form is available with the OPAs and distributors of TMF as well as on the website of TMF, namely, www.taurusmutualfund.com
- Enrolment under the DSO facility will automatically override any previous instructions of the Unitholder for 'IDCW Payout' or 'IDCW Reinvestment' facility, as the case may be, in the Source Scheme and will also apply to additional units allotted in the Source Scheme subsequently on account of additional subscription / switch-in / SIP / STP etc.
- The request for enrolment for DSO must be submitted at least seven (7) working days prior to the Record Date for the IDCW in the Source Scheme. Hence investors should submit the DSO enrolment request sufficiently in advance. In case of this condition not being met, the DSO enrolment would be effective from the immediately succeeding Record Date of the IDCW in the Source Scheme. Consequently, any IDCW declared between the date of acceptance of the DSO Enrolment Form and date of registration thereof by the Registrar will be paid out or reinvested in the Source Scheme, as applicable.
- Unit holders will have the right to opt out of DSO facility at any time by submitting a written request. At the time of discontinuation of DSO facility, the unit holders should specify their choice of option i.e. IDCW Reinvestment or IDCW Payout, in the Source Scheme, failing which, the default sub-option, i.e., IDCW Reinvestment will be applicable.
- Request for cancellation of DSO must be submitted at least seven (7) working days prior to the Record Date for the IDCW in the Source Scheme. Any IDCW declared in the Source Scheme during the interim period will be swept to the Target Scheme.
- The Account Statement for DSO transactions will be sent by post or by email (if email id. is provided) within 30 days of IDCW sweep.
- It is expressly clarified that the IDCWs so swept and invested in Target Scheme shall be constructive payment of IDCWs to the Unit holder/s and constructive receipt of the same amount from each Unit holder for investment in units of Target Scheme. It is further clarified that the IDCW amount transferred would be treated as switch-in / subscription transaction in the Target Scheme and will be liable to PAN and KYC provisions, as may be applicable.
- TMF is not guaranteeing or assuring any IDCW under any of the schemes. All IDCW distributions are subject to investment performance of the respective schemes, availability of distributable surplus and at the discretion of the Trustee.
- The AMC reserves the right to change/ modify the terms and conditions of the DSO without prior notice or without assigning any reason thereof. If DSO facility is withdrawn from any Source Scheme or Target Scheme, all investors who have opted for DSO will be shifted under IDCW Reinvestment Option in the Source Scheme and the unitholders will be sent suitable intimation.

Scheme Specific Risk Factors

Mutual Fund units involve investment risks including the possible loss of principal. Please read the Scheme Information Document carefully for details on risk factors before investment.

• Risks associated with equity and equity related instruments:

Equity and equity related instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of Equity and Equity Related Instruments may fluctuate due to factors affecting the securities markets such as volume and volatility in the capital markets, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws, political, economic or other developments, which may have an adverse impact on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units issued under the Schemes may be adversely affected.

Further, the Equity and Equity Related Securities are risk capital and are subordinate in the right of payment to other securities, including debt securities.

Equity and Equity Related Instruments listed on the stock exchange carry lower liquidity risk; however the Schemes' ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of a Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme's portfolio.

The Schemes may invest in securities which are not listed on the stock exchanges. These securities may be illiquid in nature and carry a higher amount of liquidity risk, in comparison to securities that are listed on the stock exchanges or offer other exit options to the investor. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

• Risks associated with Fixed Income and Money Market Instruments:

Price Risk/Interest Risk

Fixed Income and Money Market Instruments carry price risk (also known as interest rate risk). Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rate falls, the prices increase. In case of floating rate instruments, the general level of price risk is low (as compared to fixed rate instruments), however, these instruments are also subject to some amount of interest rate risk as the spread over the benchmark rate may change. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Prices of bonds/money market instruments traded change frequently (up or down) which in turn leads to changes in the NAV of the scheme which holds such securities.

Prepayment Risk

Certain fixed income securities give an issuer a right to call back its securities before their maturity date. This right is generally exercised when interest rate has declined. The proceeds received when such right is exercised may get invested at lower yield as the interest rate have declined. This risk of deploying proceeds at lower rate is known as prepayment risk.

Credit Risk

Credit risk or default risk refers to the risk that the issuer of a fixed income security may default on interest payment or paying back the principal amount on maturity. In case of Government Securities, there is minimal credit risk. Lower rated or unrated securities carry a higher credit risk as compared to higher rated securities.

Liquidity or Marketability Risk

The ability of a fund to execute sale/purchase orders is dependent on the liquidity of the underlying securities. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. The securities that are listed on the stock exchange carry lower liquidity risk, but the ability to sell these securities is limited by the overall trading volumes. Further, different segments of Indian financial markets have different settlement cycles and may be extended significantly by unforeseen circumstances.

Re-investment Risk

This refers to the risk that intermediate cash flows received from a security is re invested at a different rate than assumed at the time of purchase.

• Risks Associated with Investments in Government Securities

The Government Securities Market is the largest and most liquid market in India, with the large participants being banks, non-banking finance companies, insurance companies and provident funds which are required by statutes to invest in Government securities. The government securities are being issued in a tenure starting from 3m upto 40 years at present. It is more liquid in nature because of large investor base as compared to corporate bonds. Since, it is being issued over long tenure compared to corporate bonds, it carries higher interest rate risk on long tenure securities. Since the security is sovereign in nature, the credit risk is minimal.

• Risks associated with Investing in Derivatives

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the Fund Manager to identify such opportunities. Identification and execution of the strategies to be pursued by a Fund Manager involve uncertainty and decision of a Fund Manager may not always be profitable. No assurance can be given that a Fund Manager will be able to identify or execute such strategies. The scheme will allow a maximum exposure of 20% of the portfolio in Derivatives.

Derivative products are specialized instruments that require investment techniques and risk analysis different from those associated with stocks and bonds. The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments. Other risks include risk of mis pricing or improper valuation and the inability of the derivative to correlate perfectly with underlying assets, rates and indices, illiquidity risk whereby a Scheme may not be able to sell or purchase derivative quickly enough at a fair price.

• Risks associated with Securities Lending

The risks in lending portfolio securities, as with other extensions of credit, consist of the failure of another party, in this case the approved intermediary, to comply with the terms of agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure to comply with can result in the possible loss of rights in the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary. The Mutual Fund may not be able to sell such lent securities and this can lead to temporary illiquidity. The Fund Manager will apply the following limit – Not more than 20% of the net assets of the Scheme can generally be deployed in securities lending.

• Risks associated with Short Selling

The Scheme may enter into short selling transactions, subject to SEBI and RBI Regulations. Short positions carry the risk of losing money and these losses may grow unlimited theoretically if the price of the stock increases without any limit which may result in major losses to the Scheme. At times, the participants may not be able to cover their short positions, if the price increases substantially. If numbers of short sellers try to cover their position simultaneously, it may lead to disorderly trading in the stock and thereby can briskly escalate the price even further making it difficult or impossible to liquidate short position quickly at reasonable prices. In addition, short selling also carries the risk of inability to borrow the security by the participants thereby requiring the participants to purchase the securities sold short to cover the position even at unreasonable prices.

• Risks associated with transactions in units through Stock Exchange Mechanism

In respect of transactions in Units of the Scheme through NSE and/ or BSE or any other recognized stock exchange, allotment and redemption of Units on any Business Day will depend upon the order processing/ settlement by NSE, BSE or such other exchange and their respective clearing corporations on which the Fund has no control. Further, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by NSE, BSE or such other recognized exchange in this regard.

INFORMATION OF SCHEME

• Settlement Risk

Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Portfolio to make purchases in intended securities due to settlement problems could cause the Portfolio to miss certain investment opportunities.

• Regulatory Risk

The value of the securities may be affected by uncertainties such as changes in government policies, changes in taxation, and other developments in the laws and regulations.

• Risk Associated with Unlisted Securities

Securities which are not quoted on the stock exchanges are inherently illiquid in nature and carry a larger liquidity risk in comparison with securities that are listed on the exchanges or offer other exit options to the investors, including put options. The AMC may choose to invest in unlisted domestic securities that offer attractive yields within the regulatory limit. This may however increase the risk of the portfolio. Additionally, the liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

• Risks associated with investing in Foreign Securities/ Overseas investment

The risk of investing in foreign securities carries exchange rate risks related to depreciation of foreign currency and the country risks, in addition to the risks of securities in domestic securities. The country risks would include events such as change in regulations or political circumstances like introduction of extraordinary exchange rate controls, restrictions on repatriation of capital due to exchange rate controls, bi-lateral political tensions leading to immobilization of overseas financial assets and the prevalent tax laws of the respective jurisdiction for the execution of trades or otherwise.

Risk Management / Mitigation Strategies

Creation of segregated portfolio shall be subject to following guidelines specified by SEBI as per circular no. SEBI/HO/IMD/DF2/CIR/ P/2018/160 dated December 28, 2018 and circular no. SEBI/HO/IMD/DF2/CIR/P/2019/127 dated November 07, 2019.

The Fund by utilizing a holistic risk management strategy will endeavour to manage risks associated with investing in equity and debt markets. The Fund has identified the following risks of investing in equity and debt instruments and designed risk management strategies to mitigate and manage such risks.

Risk associated with portfolio construction	AMC has incorporated adequate safeguards to manage risk in the portfolio construction process. Risk control would involve managing risk in order to keep it in line with the investment objective of the Scheme. Fund Management team has adequate processes in place for identifying & analyzing the various risk ratios. Various checks have been put in place to adhere to the Investment Restrictions. AMC is using Miles Moneyware Fundware as Front Office System.
Market Liquidity Risk & investment in unlisted securities	Fund Manager would invest in those securities that are expected to have more market liquidity. The first access to liquidity is through cash and fixed income securities. The investment in unlisted securities will be minimal and regularly monitored by the Investment Committee.
Risk associated with Equity derivatives	Equity derivatives may be used for directional (including equitisation of cash) and yield enhancement strategies. The credit risk associated with equity derivatives is decreased as only exchange traded equity derivatives are permitted. On portfolio and regulatory limits, there are internal limits and there is an established monitoring process.
Quality Risk or risk of investing in unsustainable/ weak companies	Investment universe is carefully selected to only include high quality businesses.
Concentration Risk	To invest across the market capitalization spectrum and industries/sectors
Credit Rating Risk	The endeavour is to invest in fixed income securities which have high credit quality and preferably have high rating from rating agencies such as CRISIL, ICRA or CARE. The probability of rating downgrade is low. The due diligence performed by the fund management team before assigning credit limits should mitigate company specific issues.

Interest Rate Risk	Interest risk is managed by meticulous determination of average maturity of the portfolio. Extensive analysis of macro economic conditions is carried out to form a view of future interest rates and to position the portfolio accordingly.
Risk associated with Stock Lending	At present, there is no significant activity in the Securities Borrowing and Lending market. The Fund has so far not participated in Securities Lending market. However, we understand the risks associated with the securities lending business and the AMC will have appropriate controls (including limits) before initiating any transactions.
Procedure followed for investment	Before making any fresh investment through primary market or secondary market, the research team prepares a detailed Research Report on each investment based on the fundamental as well as the technical analysis.
decisions & Risk control measures (Applicable to All Equity Schemes)	The Board of Trustees in terms of SEBI's guidelines has approved the format of the Research Reports. The companies are identified for investment based on top down/ bottom up approach as well as in-depth market analysis. Thereafter, the Research Report is discussed amongst the Investment Committee members comprising of the CEO, Fund Managers - Debt & Equity, CFO & HOI. The Investment Committee approves or rejects a stock. The stocks approved form a part of the stock universe. The Fund Manager then decides on the timing, quantity & price at which to buy or sell a share within the framework of the Investment Policy. The Fund Manager also takes into account the market conditions, investment/ redemption flows and other external factors. The reasons for subsequent purchase and sale of the same instrument are also being recorded. An Investment looks into the following matters- a) Adherence to Prudential Investment guidelines b) Choosing the universe of stock for Equity investments. c) Addition/Deletion of stocks to the universe of stocks. d) Adherence to Derivatives trading guidelines. e) Risk management and risk mitigation issues. The Investment Committee meeting is held once a month. The Board of TAMCO has also constituted an Investment Monitoring Committee comprising of two Independent Directors and Managing Director of the Company. Investment Monitoring Committee Meeting is held every month and reviews Investments/ disinvestments made since last meeting, Research Reports etc.

[^]Consolidated Account Statement (CAS) shall contain details relating to all the purchase (excluding any New Fund Offer (NFO) transactions), redemption, switch, IDCW payout, IDCW reinvestment, systematic investment plan, systematic withdrawal plan, systematic transfer plan and bonus transactions, carried out by the investor across all schemes of all mutual funds during the month and holding at the end of the month including transaction charges paid to the distributor.

12. E-MAIL COMMUNICATION & ONLINE ACCESS

Account Statements / Annual Reports / Other Statutory information (as may be required under SEBI (Mutual Funds) Regulations, 1996), can be sent to each Unit holder by courier / post / e-mail. Unit holders who have provided their email ID will receive these documents by email and have to download and print the same. Unitholder may choose to select the 'Opt-in' box (Refer column No. 15 in Common Application Form) to get the physical copy of the schemewise annual / abridged report. On acceptance of the application for subscription, an allotment confirmation specifying the number of units allotted, by way of email and/or SMS within 5 Business Days from the date of receipt of transaction request, will be sent to the Unit holders registered e-mail address and/or mobile number. Should the Unit holder experience any difficulty in accessing the electronically delivered documents, the Unit holder shall promptly advise the Mutual Fund to enable the Mutual Fund to make the delivery through alternate means. It is deemed that the Unit holder is aware of all security risks including possible third party interception of the documents and contents of the documents becoming known to third parties.

******The email id & mobile no. provided by the investor should belong to the first holder only. It should not belong to any other third party (including advisors or distributor's). If a breach is found, AMC/RTA reserve the right to delete such information. As a general rule, the email address of one investor is not allowed to be updated against multiple folios, unless a specific written request (with proper reasons) is received in this regard duly signed by all investors, OR if the investors in such folios belong to the same family (self, spouse, dependant parents & dependant children). This should be treated as a mandatory and important requirement to not only ensure speedy & efficient communication between the investor(s) & AMC/RTA but also to prevent any fraudulent transactions.

A new/first time investor OR an existing investor can use this facility to make an online Purchase, iSIP, Opt-iSIP or other applicable transactions. To use this facility, a Unit Holder needs to have a secured TPIN. Investors (who have a valid email & mobile registered in their folio) can instantly generate TPIN online or via the Toll Free number – 1800 108 1111. To further enhance the investor's online security, log-in happens only after clicking on the relevant link to generate, receive & use an OTP (one-time-password) sent via SMS on investor's registered email id & mobile. A new purchase, redemption & switch transactions are also OTP enabled. Validity of OTP is for 20 minutes; after which the investor will have to re-generate the same. Please DO NOT share your OTP with any un-authorised person. It is essential that for old folios (where full investor details are not updated), the original Unit Certificate (if held by the investors, as applicable) are returned back along with mandatory updation (but not limited to) of Bank details, KYC, PAN, FATCA, Email ID & Mobile no. in the folio to enable Online access.
